

ONLY TEN DAYS REMAIN OF THE FOURTH LIBERTY LOAN CAMPAIGN. WE'LL SOON KNOW WHO THE SLACKERS ARE.

ANOTHER NOTE WILL GO TO PRINCE MAX AFTER HE REPLIES TO INQUIRY

Wilson Felt Curt Refusal Would Be Used By Max To Stimulate Home People To Activity

STRESS LAID ON U. S. TERMS

By CARL D. GROAT
(United Press Staff Correspondent)

Washington, Oct. 8. — President Wilson will probably go before Congress to cast further light upon the position he took in his inquiry to German Prince Max as soon as the latter replies.

The White House viewpoint regarding the query was elucidated thus: The inquiry does not bind President Wilson to any special course. It is distinctly an inquiry and not a reply to Prince Max's peace offer and the President will make a fitting reply as soon as he knows for certain whether Germany wants peace on his terms or is merely making an insincere peace move.

Particular attention was called to the fact that among the President's peace terms are complete freedom of Russia, Belgium, occupied France and reparation of the wrongs done Alsace-Lorraine. Also there is distinct emphasis upon the fact that self-determination shall be the governing factor in the territorial adjustments.

The President felt that a curt answer would serve as ammunition to the Teutonic war lords to stimulate the people of Germany and Austria to fresh efforts under the guise of self defense.

As the matter now stands, Germany knows clearly that complete evacuation of occupied territory must be the preliminary to a peace move. The German leaders were told that they must show their true colors not only to the world but to their own people.

During the afternoon President Wilson visited Secretary of State Lansing and remained in conference with him and with Chief of Staff March for a considerable time. The significance of the military man's presence there was not entirely clear but speculation was that the President was considering the military aspect of the future in case the Germans declined to evacuate.

By ED. L. KEEN

London, Oct. 8.—The first impression of President Wilson toward the armistice situation is somewhat disappointing especially from a fight to a finish standpoint. There is considerable speculation as to what means will be employed to enforce other than the fourteen terms in case the Germans retire from the western front.

INFLUENZA EPIDEMIC IS CONTINUING

Two influenza patients were admitted to the emergency hospital this morning. The situation about town as a whole is satisfactory to the health authorities who advocate unimpaired caution against a possible spread of the disease. Take no chances and call a physician when the first symptom appears.

The total deaths at Wishaw, Jefferson county, as a result of the Spanish influenza epidemic there reached 45 yesterday morning. Six having died there since Monday noon, five residents of Wishaw and Miss Anna McAndrews, a graduate nurse of DuBois. No new cases have developed in the past 24 hours and physicians in charge believe the epidemic has

TEXT OF PRESIDENT'S REPLY TO THE GERMAN CHANCELLOR

"Department of State.

"October 8, 1918.

"Sir:

"I have the honor to acknowledge on behalf of the President, your note of October 6, inclosing a communication from the German government to the President, and I am instructed by the President to request you to make the following communication to the Imperial German chancellor:

"Before making reply to the request of the Imperial German government and in order that that reply shall be as candid and straightforward as the momentous interest involved requires the President of the United States deems it necessary to assure himself of the exact nature of the note of the Imperial Chancellor. Does the Imperial Chancellor mean that the Imperial German government accepts the terms laid down by the President in his address to the Congress of the United States on the 8th of January last, and in subsequent addresses and that his object in entering into discussion with the United States is to decide upon the practical details of their application?

"The President feels bound to say with regard to the suggestion of an armistice that he would not feel at liberty to propose a cessation of arms to the governments with which the government of the United States is associated against the Central Powers as long as the armies of those powers are upon their soil. The good faith of any discussion would manifestly depend upon the consent of the Central Powers immediately to withdraw their forces everywhere from invaded territory.

"The President also feels that he is justified in asking also whether the German Chancellor is speaking only for the constituted powers of the government who have so far conducted the war. He deems the answer to these questions vital from every point of view."

GOVERNOR OF SMYRNA ON WAY TO ATHENS TO DISCUSS PEACE TERMS

London, Oct. 9.—A dispatch from Athens dated September 25 and 26 stated that Rahmi Bey, governor of the Turkish province of Smyrna, is expected to arrive in Athens tonight to discuss peace.

LIBERTY BOND NEWS OF INTEREST TO YOU

These mornings are frosty but the patriotism of our people has not been chilled. The fog has been dense these nights and long into the day, yet the good citizen is able to find his way to the Liberty Loan committee with his subscription—he has not forgotten the boys over the sea.

Pershing's men, who are pounding the Hindenberg line to pieces, fighting for you and for me.

New Millport, on the creek, is not a large village. No meeting has been held here this campaign, yet when the fog lifted this morning she was \$1000 over the top.

Kerrmoor a little further up the creek at one meeting went \$1350 over her quota and will do better still.

Then there is Ansonville overlooking the whole world—watch the boy that will put us up to the \$10,000 mark—our standard in the Third Liberty Loan.

Reynoldsville
There are about 400 cases in the town, many complicated with pneumonia. The school building is being used as a hospital and the most severe cases are being taken there. Here nurses and physicians are also badly needed.

about the way they should be done—they are looking out of one eye at Ansonville and saying "Why should the spirit of mortal be proud?"

Berwinstale is a little jealous of Ansonville and though a little late getting under way intends to show both Ansonville and McCartney that, meeting or no meeting, she too is on the map.

Boardman and Maple Run are not far apart but let it be understood they are not one by any means. Neither of them have had meetings this campaign but Boardman got the start in the race with \$5,850 of subscriptions. Maple Run heard about what Boardman is doing so watch the thermometer rise up there and shoot up over the \$10,000 mark.

Don't forget Carnwath at one whack she went \$1,100 over her quota and hasn't got a full head of steam on yet.

The roads from all these little villages lead to Clearfield—the telephone lines are working and they would like to know what Clearfield—Old Town, if you please—is doing.

MORE DIPHTHERIA CASES REPORTED

Four more cases of diphtheria were reported to the health authorities last evening.

PENNSY TRAIN LATE

The Pennsylvania passenger train due here at 10:45 was three hours late today due to a tear-up on the mountain caused by a coal train wreck.

70 OF OUR BOYS GETTING PROGRESS "OVERTHERE" NOW

The Progress is now being sent to seventy of our boys with the American Expeditionary Forces in France and within a week or two those seventy boys are going to be very much pleased to know that there are thoughtful people back home who are thinking of them and to have, in one bundle, a whole week's news of their home community.

We consider it really remarkable that so many people took advantage of our offer to send The Progress overseas since we made the proposition. It was in effect only about ten days and in that time, as we said before, seventy subscriptions were taken.

We are now getting inquiries every day as to whether it is too late to subscribe at the regular rate for the boys overseas and we have decided to renew the offer. There are so many yet who will want to send the home paper to these boys.

In order that all may understand we will again explain that the addresses should be given us as plain as possible. Please do not give the address over the phone as by doing so we are liable to get it wrong. We would also explain that we are sending the papers once a week, six in a bundle, securely wrapped with postage affixed and it certainly is no fault of ours if they do not go through in good shape. We do not guarantee that all the papers will be received over there but we do guarantee that we will do all in our power to put them thru.

If you have a son, a brother or a friend over there and would like to send him The Progress we will be pleased to enter a three-month subscription for One Dollar.

Following is a list of the boys who are now on our A. E. F. subscription list:

Daniel I. Irwin.
John R. Hile.
Carl Schoonover.
Wilfrid Hudson.
Blake B. Shugarts.
A. I. Barrett.
James B. Dale.
James B. Brown.
W. E. Kolbe.
K. L. Wickes.
C. G. Bowes.
Robert F. Leopold.
Oscar W. Gearhart.

Attention, Six Bonds! Charge!

"GO THE LIMIT" CLUB HAS BEEN ORGANIZED HERE

These "go-the-limit" clubs are getting more and more popular every day in this Fourth Liberty loan and now there is a call which goes forth to the people of this loan district from a special committee appointed to round up the fellows who can "go the limit."

A call was issued this morning by a committee headed by Fred G. Betts and A. W. Bigler for men and women firm or corporation to get in touch with the solicitors and—"go the limit."

We append the call and will, from time to time, publish the names of the members of the club as they join: Join the "Go-The-Limit" Club Fourth Liberty Loan

Each person, firm or corporation subscribing for \$5,000 or more of Liberty bonds enrolls in this club. We must go the limit. Many have enrolled. If you are not enrolled, go at once to your bank, or to one of the solicitors, and subscribe to the limit. If you have already subscribed but have not gone the limit increase your subscription at once.

FRED G. BETTS,
Chairman Special Com.
A. D. BIGLER,
Secretary

THINK MISTAKE HAS BEEN MADE

The relatives of Harry Souders, mention of whose death in France as a result of severe wounds, was made in last evening's Progress, are much distressed and torn by anxiety and doubt since receiving the telegram from the war department concerning the young man's death.

The official telegram received announced that the soldier had died on September 2d while his mother received a letter from him several days ago which was dated September 6th and of course purported to have been written some four days after the war department's information alleges his death occurred.

His family hopes that there has been an error in Harry's case, as there have been in several others of similar nature which have occurred with members of the A. E. F. An inquiry is on foot through the proper channels looking to a solution of the matter and the friends of the family hope a mistake has been made in the report of the young soldier's death.

The letters which were received by Mrs. Souders was written by the nurse in attendance on the wounded soldier at the base hospital where he had been taken after being wounded. It was dated September 6th four days later than the date of death in the official notification. The nurse wrote as follows: "Dear Madam, your son Harry Souders is a patient in this hospital suffering from several wounds, the most serious of which is that his left hand was blown off and his right arm slightly shattered. He is feeling fine withal that however, and is even now sitting up in bed smoking a cigarette."

WANTED—At once a woman to wash at the Emergency Hospital. Inquire of Mrs. B. K. Cleeve, Supt. H. & C. phone 136. Oct 9

BRITISH AND YANKS ARE PUSHING ON TO CAMBRAI

TENNESSEE AND CAROLINA TROOPS IN GREAT DASH MAKE CENTER RUSH GAIN OF FIVE MILES

SCOTCH AND IRISH UNITS ON LINE

While the Allied press gave its approval of America's reply to the German peace proposal, Allied guns pounded away at the enemy lines on the west front and in Serbia today.

General Haig officially announced that the British had entered Ramillies, 2 miles northeast of Cambrai.

General Byng and General Rawlinson's armies continue their advance today. Their operations have extended over a front of 30 miles; prisoners taken yesterday in this fighting total 8,000. Capture of German positions on a 3 mile front southeast of St. Quentin was announced today by the French war office. German counter attacks were repulsed along the Arnes river. There was violent artillery fighting along the Oise and the Suppe.

Other dispatches from London said that 65,000 Bulgars east of Uskub had surrendered to the Allies in accordance with the armistice conditions.

Yanks In Cambrai Fight

On a 20 mile sector of the west front between St. Quentin and Cambrai the British, Americans and French were reported away ahead of their schedules and had advanced an average of from 2 to 3 miles.

American troops flanked by the Irish and Scotch units drove forward 5 miles in the center of this line, taking Brancourt and Premont. The Americans were identified as the "Wild Cat" division from Tennessee and the Carolinas. The enemy by the aid of tanks succeeded in retaking the two villages but were unable to hold them.

Franco-American troops launched an attack east of the Meuse yesterday. The advance continued today over a seven mile front to a depth of 1 1/2 to 2 miles.

Kaiser May Use Every Male

Germany is throwing every available man into the west front fighting in an effort to make it appear that the Allies are unable to make substantial gains while the peace offensive is under way. Hospitals have been stripped of their convalescents.

Russia and Ukraine have been scraped for men and it is even declared there will be a blanket levy of all males in Germany if the Kaiser is unable to secure an armistice while his troops are on foreign soil.

YANKS BAGGED 3000 ON TUESDAY

Washington, Oct. 9.—The capture of Gornay by the Americans and the liberation of four other villages and a bag of 3,000 prisoners Tuesday was reported by General Pershing today.

MORRISDALE BOY DIES AT CAMP ADAMS, R. I.

Pneumonia, following an attack of influenza, resulted in the death of Alexander Mark at Camp Adams, R. I., at 1:30 Sunday afternoon, October 6. A telegram containing the sad intelligence reached home folks at Morrisdale on Monday. The body will likely arrive at Morrisdale today.

WILL RETURN ON FRIDAY

Horace C. Whiteman who was a pneumonia patient at Camp Merritt, N. J., for several months and who is now at home on a ten day furlough, will leave on Friday to report to army headquarters again. Horace is getting along fine says he never felt better than he does now and is more than anxious to go across the big pond.

WAR TIME HYPOCRISY

To call a man a hypocrite to his face would be inviting a quarrel and as a result that term is not applied except in aggravating cases though broadly speaking the term would apply to all humanity and we should admit that fact. Try as we will we cannot down a certain amount of hypocrisy that will creep into our moral makeup. If my reader will admit the presence shadows any kind or variety of hypocrisy ever nourished and developed by an unscrupulous mind.

How anybody can associate the buying of Liberty Bonds with giving is more than a wise man can understand or explain and yet, to hear some of these bond buyers talk, one would think that they were giving every dollar they put into Liberty Bonds. Some who by explaining that they "gave" in the last campaign. But they neglect to tell you that they sent more money than they ever had laid away in a band deposit vault or their home and that it represents to make themselves believe they are really giving all they can to help win the war and trying to forget that the bonds they bought have interest coupons attached to them.

We heard of a man the other day who is not a war time hypocrite. He is saving all he can. All he saves he puts into Liberty Bonds. He points to them with pride, not believing been able to save that much money and pleased that he can give Uncle Sam the use of it to spend it for some unnecessary luxury. No, he simply clips them off and sends them to the Red Cross. Now a man does not necessarily have to follow this course to clear himself of wartime hypocrisy but he should thoroughly understand in his own mind that he is saving and lending and helping but not "giving" when he buys Liberty Bonds.

Lending to Uncle Sam in the form of Liberty Bonds is easy if we can save. Saving is the hard part and the amount we save simply represents the difference between what we must have to live with comfort and the money we earn. Start today to keep track of your expenditures. See how much of it you could have saved. That will show you how much you can put into Liberty Bonds.

HELP THEM OUT OF INVADIED TERRITORY

Hate and revenge should have no part in a settlement with our affairs with Germany and yet it would seem like a travesty on justice if Germany should seize the opportunity presented by President Wilson to withdraw her armies from French and Belgian soil in preparation for a peace discussion. The inquiry directed to the German Chancellor may lead to some complicated conditions. Just suppose for a moment that the next note from Prince Max would state that if an armistice were granted a withdrawal of German troops from all invaded territory would immediately begin. Would the United States agree to such a proposal and in the light of the note sent by the President would we not be expected to agree to it? Or did the President imply that no armistice would be granted until we had driven the Huns back to their own soil by shot and sword. This answer would be all the more acceptable to the American people. The more complete the Hun is defeated the longer he will be to stick his head above the waters of the nations again and the longer will humanity live in peace and happiness.

Let the Huns be driven back to their own country before another reply is sent to their whimpering notes. We cannot and must not forget the first two years of their victorious armies when they scattered reason and justice to the four winds of the earth. When "might was right" and they would listen to nobody in their mad passion for world domination. Prince Max does not represent the common German people but is only another hireling of the Kaiser and with the coming of peace must go the Kaiser and his emissaries. The longer one dwells on the thought of any kind of a bargain with the German nation the greater becomes the desire that the ruling powers of Germany must suffer for what they brought upon the world and the more we believe that even an exchange of notes with them is out of place. Let them withdraw their armies from invaded territory as best they can. They put them there; let them get them out or be captured. The Yanks are over there. Let's put some more bonds behind them so they will drive them out of France and Belgium before they have a chance to go out orderly. A German withdrawal from France a la Chateau-Thierry and a la St. Mihiel suits us to a T.

WEARY HAS A WEARY JOB

Secretary Weary of Democratic State Headquarters was a Clearfield visitor last evening in the interest of the Democratic State ticket (all except Bonniwell). A conference of local Democrats was held and while nothing was given out for publication the general feeling of the meeting is understood to have been that Mr. Weary is a very weary gentleman with a wearier time ahead of him early in November. And by the way, we thought the Democratic party had dropped politics during the Fourth Liberty Loan. However, a number of them found time to gather round the prophet from Harrisburg, and there were some who neither work nor fight either. Some were there who have been too busy to donate any time to the Liberty Loan committees. Alright fellows, we know you are honest in your belief that Democracy means the Democratic party so we pardon your errors.

GET YOUR HONOR FLAG

Honor Emblems or Honor Flags with percentage numbers from 75 per cent. to 100 per cent. should fly from every store, every plant, every business place, every church, club, or other organization with twenty or more members or employees subscribing to the Fourth Liberty Loan. Every smaller organization and home should display its Honor Emblem.

Apply for full information to

LIBERTY LOAN COMMITTEE.

Don't Talk Peace

America Is Fighting For Peace

If you would insure the only enduring Peace, the Peace of Allied Victory, buy all the Liberty Bonds you can possibly pay for.

If you can't shoulder a gun, you can make your money fight.

UNCLE SAM'S ADVICE ON FLU

U. S. Public Health Service Issues
Official Health Bulletin
on Influenza.

LATEST WORD ON SUBJECT.

Epidemic Probably Not Spanish in Origin—Germ Still Unknown—People Should Guard Against "Droplet Infection"—Surgeon General Blue Makes Authoritative Statement.

Washington, D. C.—(Special)—Although King Alfonso of Spain was one of the victims of the influenza epidemic in 1891 and again this summer, Spanish authorities repudiate any claim to influenza as a "Spanish" disease. If the people of this country do not take care the epidemic will become so widespread throughout the United States that soon we shall hear the disease called "American" influenza.

In response to a request for definite information concerning Spanish influenza, Surgeon General Rupert Blue of the U. S. Public Health Service has authorized the following official interview:

What is Spanish influenza? Is it something new? Does it come from Spain?

"The disease now occurring in this country and called 'Spanish influenza' resembles a very contagious kind of 'cold,' accompanied by fever, pains

Coughs and Sneezes Spread Diseases

As Dangerous as Poison Gas Shells

in the head, eyes, ears, back or other parts of the body and a feeling of severe sickness. In most of the cases the symptoms disappear after three or four days, the patient then rapidly recovering. Some of the patients, however, develop pneumonia, or inflammation of the ear, or meningitis, and many of these complicated cases die. Whether this so-called 'Spanish' influenza is identical with the epidemics of influenza of earlier years is not yet known.

"Epidemics of influenza have visited this country since 1647. It is interesting to know that this first epidemic was brought here from Valencia, Spain. Since that time there have been numerous epidemics of the disease. In 1889 and 1890 an epidemic of influenza, starting somewhere in the Orient, spread first to Russia and thence over practically the entire civilized world. Three years later there was another flare up of the disease. Both times the epidemic spread widely over the United States.

"Although the present epidemic is called 'Spanish influenza,' there is no reason to believe that it originated in Spain. Some writers who have studied the question believe that the epidemic came from the Orient and they call attention to the fact that the Germans mention the disease as occurring along the eastern front in the summer and fall of 1917."

How can "Spanish influenza" be recognized?

"There is as yet no certain way in which a single case of Spanish influenza can be recognized. On the other hand, recognition is easy where there is a group of cases. In contrast to the outbreaks of ordinary coughs and colds which usually occur in the cold months, epidemics of influenza may occur at any season of the year. Thus the present epidemic raged most intensely in Europe in May, June and July. Moreover, in the case of ordinary colds the general symptoms (fever, pain, depression) are by no means as severe or as sudden in their onset as they are in influenza. Finally, ordinary colds do not spread through the community so rapidly or so extensively as does influenza."

"In most cases a person taken sick with influenza feels sick rather suddenly. He feels weak, has pains in the eyes, ears, head or back and may be sore all over. Many patients feel dizzy, some vomit. Most of the patients complain of feeling chilly and with this comes a fever in which the temperature rises to 100 to 101. In most cases the pulse rate is relatively slow."

"In appearance one is struck by the fact that the patient looks sick. His eyes and the mucous side of his nostrils may be red. The throat is often congested and the tonsils are enlarged. There may be runny nose and a hoarse voice. The patient may have a dry cough or a cough with mucus. There may be aching in the muscles and joints. The patient may feel very tired."

"In the treatment of influenza and the symptoms it produces, the best thing to do is to keep the patient comfortable and to keep him from getting chilled or overheated. The patient should be kept in bed and given plenty of rest. The patient should be given plenty of liquid to drink. The patient should be given plenty of food. The patient should be given plenty of fresh air. The patient should be given plenty of sleep."

I MORE, have a
MAY, I have a
BUY YOUR LIMIT!
Ponds are then armor
WORK, EARN, BUY!

that in this disease the number of white corpuscles shows little or no increase above the normal. It is possible that the laboratory investigations now being made through the National Research Council and the United States Hygienic Laboratory will furnish a more certain way in which individual cases of this disease can be recognized."

What is the course of the disease? Do people die of it?

"Ordinarily, the fever lasts from three to four days and the patient recovers. But while the proportion of deaths in the present epidemic has generally been low, in some places the outbreak has been severe and deaths have been numerous. When death occurs it is usually the result of a complication."

What causes the disease and how is it spread?

"Bacteriologists who have studied influenza epidemics in the past have found in many of the cases a very small rod shaped germ called, after its discoverer, Pfeiffer's bacillus. In other cases of apparently the same kind of disease there were found pneumococci, the germs of lobar pneumonia. Still others have been caused by streptococci, and by others germs with long names."

"No matter what particular kind of germ causes the epidemic, it is now believed that influenza is always spread from person to person, the germs being carried with the air along with the very small droplets of mucus, expelled by coughing or sneezing, forceful talking, and the like by one who already has the germs of the disease. They may also be carried about in the air in the form of dust coming from dried mucus, from coughing and sneezing, or from careless people who spit on the floor and on the sidewalk. As in most other catching diseases, a person who has only a mild attack of the disease himself may give a very severe attack to others."

What should be done by those who catch the disease?

"It is very important that every person who becomes sick with influenza should go home at once and go to bed. This will help keep away dangerous complications and will, at the same time, keep the patient from scattering the disease far and wide. It is highly desirable that no one be allowed to sleep in the same room with the patient. In fact, no one but the nurse should be allowed in the room."

"If there is cough and sputum or running of the eyes and nose, care should be taken that all such discharges are collected on bits of gauze or rag or paper napkins and burned. If the patient complains of fever and headache, he should be given water to drink, a cold compress to the forehead and a light sponge. Only such medicine should be given as is prescribed by the doctor. It is foolish to ask the druggist to prescribe and may be dangerous to take the so-called safe, sure and harmless remedies advertised by patent medicine manufacturers."

"If the patient is so situated that he can be attended only by some one who must also look after others in the family, it is advisable that such attendant wear a wrapper, apron or gown over the ordinary house clothes while in the sick room and slip this off when leaving to look after the others."

"Nurses and attendants will do well to guard against breathing in dangerous disease germs by wearing a simple fold of gauze or mask while near the patient."

Will a person who has had influenza before catch the disease again?

"It is well known that an attack of measles or scarlet fever or smallpox usually protects a person against another attack of the same disease. This appears not to be true of 'Spanish influenza.' According to newspaper reports the King of Spain suffered an attack of influenza during the epidemic thirty years ago, and was again stricken during the recent outbreak in Spain."

How can one guard against influenza?

"In guarding against disease of all kinds, it is important that the body be kept strong and able to fight off disease germs. This can be done by having a proper proportion of work, play and rest, by keeping the body well clothed, and by eating sufficient wholesome and properly selected food. In connection with diet, it is well to remember that milk is one of the best all around foods obtainable for adults as well as children. So far as a disease like influenza is concerned, health authorities everywhere recognize the very close relation between its spread and overcrowded homes. While it is not always possible, especially in times like the present, to avoid such overcrowding people should consider the health danger and make every effort to reduce the home overcrowding to a minimum. The value of fresh air through open windows cannot be overemphasized."

"When crowding is unavoidable, as in street cars, care should be taken to keep the face so turned as not to inhale directly the air breathed out by another person."

"It is especially important to be aware of the person who coughs or sneezes without covering his mouth and nose. It also follows that one should keep out of crowds and stuffy places as much as possible, keep homes, offices and workshops well aired, spend some time out of doors each day, walk to work if at all practicable—in short, make every possible effort to breathe as much pure air as possible."

"In all health matters follow the advice of your doctor and the regulations of your local authorities."

Cover up each cough and sneeze. If you don't you'll spread the disease.

Buy Your Childrens School Shoes Carefully

It is hardly necessary to give you this advice, because every mother or father knows the importance of getting shoes that assist the natural development of the child's foot, still it's good advice, and will bear frequent repetition.

Here you will find large assortments of children's school shoes—sensibly shaped, splendidly made. Plenty of room for little toes to wiggle and grow, made of quality leathers that insure long service, even though given the roughest treatment. Buying children's shoes carefully really amounts to buying them at this store. We have them all marked at reasonable prices too.

LYTLE BROTHERS

Stupenduous Potato Sale of Fine U. S. Graded Potatoes

These will run uniform in size and we are assured by the shipper that they are fine mealy cooking potatoes. They are graded by the U. S. Food regulation standard which is your protection at this time.

The car is now running and we expect it to be here

Monday, October 14th At The Pennsy Siding

We will have a new selling plan for these potatoes. They are shipped in sacks containing 2 1-2 bushels each. We will not break the sacks as the price is so low \$1.75 per bushel—and the profit margin so close that we must eliminate handling as much as possible.

Orders Taken At The Stores

If you wish to be sure of getting a sack you may place your order at any of the Clearfield stores and—here's one little restriction we place on the sale—this order must be paid for at the time of placing to avoid confusion at the car and avoid disappointment to some of our customers.

We Must Furnish the Spade" — Billy Sunday

By REV. WILLIAM A. SUNDAY

Uncle Sam's Liberty war chest needs filling again!

We have the cash to fill it as many times as he lifts the lid.

There are only two horns to this dilemma—you are either a patriot or a traitor.

The men on the firing line and on the battle-ships have turned from business, home, mother, wife, children, and they stand ready to give *their* lives and shield with *their* bodies us who remain at home.

We are unworthy to be thus protected, if we do not do our utmost to sustain them.

We must be one in our determination to win this war. We are traitors to the cause for which they are giving their lives, if we do things here that make their efforts harder.

Life is not worth living unless there is something to live for. *Life would not be worth living if that bunch of Huns should win.*

That is why they cannot win. That is why we cannot lose.

What a mountain of crime God has on his books against that horde of Hellish Huns. What grave is deep enough for this thousand-armed, thousand-footed,

thousand-headed, thousand-horned, thousand-fanged pirate of the air, assassin of the seas, despoiler of the earth and ambassador of Hell!

The army and navy will dig the grave, but we must *furnish the spade.*

Our boys will soon hang crape on the door of the Potsdam Palace, and the bands will play Yankee-Doodle and Dixie along the Rhine.

Uncle Sam is the cactus in the Kaiser's pillow.

Our Boys have gone over to clean up on that fool bunch of Huns and it is up to us to supply them with whatever they need to finish the job. It takes money to keep the riveters riveting—the sawyers sawing—the machine guns spitting bullets and the grub wagon always on hand with the eats. There is nothing too good for our brave defenders.

Our vocabulary contains no words adequate to express our approval of the achievements of our government since we threw our hat in the ring. We are rich on top of the ground; we are rich under the ground and our rivers creep like silver serpents to the seas, bearing our products.

The children of England, France, Italy and Belgium are laughing once more because they are being fed from Uncle Sam's bakeshop. One carload of meat every two minutes, one hog out of every four, nine million pounds of meat a day—all going over to feed our boys. We are in this scrap to the last dollar, the last grain of wheat, the last day.

We will never stop until Germany dips her dirty blood-stained rag to the Stars and Stripes. It's a whale of a job we've tackled, but we can and must put it over.

But you must help.

Don't whine. Don't knock. You can't saw wood with a hammer. Don't turn the hose on the fire; add fuel.

Postum

Good Friend of the Coffee Drinker

Coffee often disagrees with the best of us

When you find it wise to stop coffee for a few days on account of disturbed digestion or too much nerves, switch to Postum and note the result.

Many people who love their coffee follow this plan with excellent results.

Postum comes in two forms: Postum Cereal which must be boiled, and Instant Postum, made in the cup in a moment. They are equally delicious and the cost per cup is about the same.

"There's a Reason"

FOUR DUBOIS SOLDIERS MISSING IN ACTION

Yesterday afternoon and last evening telegrams were received in Dubois from the War Department apprising relatives of the fact that Dubois young men were missing in action. Four young men from Dubois and immediate territory are missing. They are:

James D. Hay, of South Jared St. Elmer McMasters, of State street. Corp. Charles Wike, Forest avenue. Corp. Charles Hetrick, Clear Run.

The telegrams to the relatives were all identical, with the exception of the names and stated that the young men had been missing in action on August 27th.

All of these young men are members of Co. H, 112th Regiment, formerly the 16th Regiment. They all trained with the company at Camp Hancock and went over with the regiment last April.

BELL-ALDERDICE WEDDING OCTOBER TWENTY-SIXTH

Judge and Mrs. Singleton Bell, of West Front street, have issued invitations to the wedding of their eldest daughter Miss Julia to Robert J. Alderdice, of Pittsburgh, the happy event to occur in the First Presbyterian church on Saturday evening, October 26th.

NOTICE

Owing to the ruling of the board of health there will be no meetings of the Sons and Daughters of Liberty until further notice. All members wishing to pay their dues will leave the same with the financial secretary Ada Ogden, on Turnpike avenue. All sick members please report to the relief committee.

RUTH OGDEN
Counselor

WHAT IS YOUR SHARE?

Let your full subscription be your answer to the question of how you will share in the coming victory. Be true to yourself and to the men who are fighting for you. Here is a table that will help you to figure out how many Bonds to buy in the Fourth Liberty Loan:

IF I HAVE DEPENDENT ON ME	NONE	ONE	TWO	THREE	FOUR	5 or More
\$20 TO \$25, I SHOULD BUY	\$150	100	50	50	50	50
\$25 TO \$30, I SHOULD BUY	200	150	100	100	50	50
\$30 TO \$35, I SHOULD BUY	250	200	150	150	100	100
\$35 TO \$40, I SHOULD BUY	300	250	200	150	100	100
\$40 TO \$45, I SHOULD BUY	350	300	250	200	150	150
\$45 TO \$50, I SHOULD BUY	500	400	300	250	250	200
\$50 TO \$60, I SHOULD BUY	600	500	350	300	300	250
\$60 TO \$70, I SHOULD BUY	700	600	450	400	400	300
\$70 TO \$80, I SHOULD BUY	800	700	600	500	500	400
\$80 TO \$90, I SHOULD BUY	1000	900	800	700	600	500
\$90 TO \$100, I SHOULD BUY	1200	1100	900	900	800	700
\$100 TO \$120, I SHOULD BUY	1500	1400	1300	1200	1100	1000

And Those of Larger Incomes Should Buy Proportionately Larger Amounts.

This scale has been worked out by the Liberty Loan Committee, with the help of labor leaders. If it is followed the wage-earner will have done his full part to make the Fourth Liberty Loan a success.

GLEANING FROM SOLDIER'S LETTERS

Camp de Meuse
France

Dearest Mother and all:

Well Mother dear, I am still well and still enjoying army life but I am now beginning to realize that I am in the army, a real army engaged in active warfare, and can hardly wait for the few weeks we must put in on preliminary training here before we take our place on the front line.

I have been on the gun range nearly every day since we landed here, driving a first aid cart. Ever see one? Well it's a big two wheeled cart and you usually get the biggest horse in the regiment to hook up in it, and as my regular horse has been on the sick line since marching over from Redar I have been using a different one every day and day before yesterday I drew a lemon. It took Jitney Nichol the boy who goes with me on the cart, about an hour to hitch her up, and about two hours to drive the three miles to the range. We sure had a circus with that mare all right. She cut more dices on that road than a monkey on a grape vine, then held up a truck for about half an hour by getting crossed in the road and refusing to move. Of course there was a heated argument between the two truck drivers and I and while the argument was in progress the old gray mare started serenely on her way and never stopped till we reached the range. We were covered from head to foot with dust. We pitched the tent behind the guns and watched the boys smash the targets with the big 155s and they can shoot too, you can see the big shell leave the guns and watch them till they are out of sight and with field glasses you can see them light and throw dirt and stones a hundred feet or so in the air, about two minutes after the shell strikes you hear the report of the explosion, and to sit all day behind those guns, eighteen or twenty of them going all day is pretty hard till you are used to it. I had a headache the first few days, but now I don't stick cotton in my ears or anything else, and have gone to sleep in the tent behind them when they were still going.

There are about 4500 German prisoners in this camp and to talk to them you would not think it of them. Lots of them are from the states and seem like pretty nice fellows but most of them are hard heads and bad actors. We pass them every morning on the way to the range going out to build roads and do general work under guard of French soldiers. There are aeroplanes flying over this camp nearly all the time. I like to watch them turning and doing tail spins and one thing and another, some of them are as reckless as the deuce.

Pidge Matley is a gunner in 314 now. I was talking to him the other day on the range. He operates a French 75. It's a little better than our three inch field piece. The Germans when they are captured always ask to see one of our three inch machine guns. The boys operate them like lightning and they make more noise than our big six inch guns. They sure are a wicked gun all right and have saved France more than once. Bobby Thompson and Chink Poorman from Chester Hill are here

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles. If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain. Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

In this camp with the 305 ammunition train some place but I haven't seen them yet. Think I'll look them up Sunday. Get Dan Rumberger's regiment too, I want to find out what part of France he is in. Is there any truth about Ashley Dennis being killed in action. Andy Farnel told me about it the other night. He is in the same outfit with Max Askey isn't he.

You needn't worry about me. We are well fed and cared for and having a good time in general and I am in the best of health. I'll try and write you again Sunday, so I'll say good bye till then.

Love to All
GEORGE R. BECK

Words won't win!

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Millions of folks battle internally now instead of looking their system with drugs. "What's an inside bath?" you say. Well, it is a guaranteed to purify, invigorate if you could believe these hot water enthusiasts. There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile, and indigestible matter left over in the body which if not eliminated every day becomes food for the millions of bacteria who inhabit the bowels. The quick result is poisons and toxins which are then absorbed into the blood causing headaches, listlessness, attacks of breath, bad taste, cold, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments. People who feel one day and badly the next but who simply cannot get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Buy Liberty Bonds!

Your country needs all your money therefore it's up to you to save all you can on your magazines.

TAYLOR
The Magazine Man.

OTTO WAS ON THE JOB

In a letter to The Progress Private Otto Eppers, who styles himself "plain Otto" gives a vivid description of the recent TNP explosion at the T. C. Gillespie shell loading plant at Morgan, near Perry Amboy, N. J. Otto is located at Camp Alfred Vail, N. J., about eighteen miles from the explosion and he said the series of explosions created great excitement at the plant as it was thought the German fleet had sneaked across the ocean and was bombarding New York.

Otto said the men at Camp were lined up for inspection at once and they anticipated action of some kind at once and were grievously disappointed when the truth was finally known.

A large number of army trucks were dispatched from the camp to the scene and the soldiers worked hard in helping to get survivors away from the scene of the wreck and the countless explosions occurring momentarily.

Otto failed to get orders for this duty and thus was unable to demonstrate his ability as a fire fighter.

Give my best wishes to all the dear ones at home and tell them that I am still the same Otto I was when I left Clearfield with the best of fighting spirits and ready for it all. Back up the Liberty Bonds with the best of each dollar in dear old Clearfield and we will gladly fight until we are gone. I close with respects to all and wishing them all great success with victory to us all.

I remain
PLAIN OTTO

TREE PLANTING OCT. 13

Brunbaugh Fixes Date to Begin Replenishing the Supply

Governor Brunbaugh today issued a proclamation fixing October 18 as "Walnut Tree Planting Day" and urged the school children, boy scouts, girl scouts, sportsmen, farmers and others to plant black and white walnut trees especially the former.

The nation's supply of black walnut lumber is nearly exhausted and the planting of trees will bring the Governor says, a generous supply of wood, purer air, regulated water supply and food for the wild life of the state in the future.

Liberty is cheap at the price! It's your chance to STRIKE. The Runn butcher wounded!

Take The Chill off The House

When the youngsters come tumbling out of bed these chilly mornings they should be greeted with a warm room in order to avoid the chance of the chill that presages influenza.

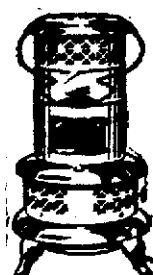

A PERFECT HEATER will keep your house cozy and warm these mornings and it will not be needed to start the furnace—saving coal.

The ease with which these PERFECT HEATERS are moved from room to room as you go through the morning's work makes them the ideal heat for the season.

PERFECT OIL HEATERS

You're patriotic in saving coal; you're avoiding chances of taking cold yourself and having a warm room or rooms for the kiddies when they first hop out of bed.

These PERFECT HEATERS are economical in oil burning.

Shotguns and Shotshells

GET the full benefit of your spare time for shooting. Use the full power of the Remington-UMC Pump Gun or the Remington-UMC Shotgun and Shotshells "Arrow" or "Nitro Club" Waterfowl Shot Lined "Speed Shells" made to shoot right.

Remington-UMC
for Shooting Right

There is not a single out-of-date mechanical principle of old-fashioned (but modern) the Remington-UMC Shotguns. They load, the work and shoot equal to highest expectations.

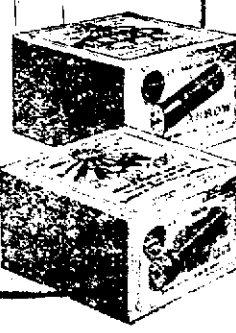

Likewise, Remington-UMC Shotshells "Arrow" and "Nitro Club" Waterproof Seal Lined "Speed Shells" made completely waterproof by a wonderful and exclusive process, really justify their selection.

You buy the same popular "Arrow" or "Nitro Club" brand, at the regular price, and get the Waterproof improvement besides, without extra charge. The same shells, having highest speed, best pattern and penetration, made still better. When they "ought to" be affected by damp evening or soaking wet from a shower, they will be found hard and smooth as usual, will work through the gun perfectly and shoot right.

In black gun, shell, lever, the old reliable "Nitro Club" now Waterproof sealed at turnover and top web.

Sold by Sporting Goods Dealers in Your Community. Carried all year long with REM-UMC, the combined Gun Power and Reliability of the Remington-UMC.

American Girl Travels by Aeroplane, Handcar, Tank and Wheelbarrow to Sing for Soldiers

A GIRL who has her own car or the use of elegant limousines may well bite their beautifully manicured nails with envy of Miss Kate Horisberg, who has been staging in Y. M. C. A. huts to entertain the American Expeditionary Force soldiers in France.

In one tour she was conveyed from one stand to another variously in

- A side-car,
- A limousine,
- An airplane,
- A tank,
- A camionette,
- A saw-mill carriage,
- Atop a pile of logs on a timber snag.

On a railroad handcar, and finally in a wheelbarrow.

An army truck was included among her prospective conveyances, but it became mired and could not be used.

Before the United States entered the war, Miss Horisberg, a Baltimore girl, was a dramatic soprano doing church, concert and light opera staging. She toured forty weeks in "Every Woman," playing the role of Conscience. When the Y. M. C. A. took up the gigantic task of entertaining the American boys in addition to furnishing them with mental, spiritual and physical refreshment and recreation, she was enlisted by the Red Triangle's entertainment bureau for concert work in the war zone. She went over with the first quartette sent by the "Y," the Liberty Quartette, in December and has not signified her intention of quitting the work after more than half a year.

Miss Horisberg's singing tour took her to many American camps where she appeared on the stage at the Y. M. C. A. huts, the soldiers' theatre in the war zone. Overflowing audiences greeted her, for the Yankee boys in France have learned to depend on the "Y" to keep them supplied with the best, clean, healthy entertainment of the sort that is a link with home. The young men in olive drab who are fighting abroad for democracy appreciate thoroughly the selfless work which the men and women of the Red Triangle are doing for them there, the majority of them at the risk of their lives. The remarkable series of rides on unusual vehicles which the boys treated Miss

MISS KATE HORISBERG

Horisberg was a manifestation of their appreciation of the "Y" work as well as of their delight at chaperoning an American girl through the war zone. Her novel tour started in a specimen of that quaint but useful type of army vehicle known popularly as a "bathtub," the raucous conveyance of a motorcycle. Having swallowed enough dust while in this she was transferred to a more prosaic limousine, in which she arrived at an aviators' camp. She sang her way into the affections of the flyers, who took her by airplane to her next stop. This concert was for the boys of the first American tank division in France and, not to be outdone by the aviators, the tankers insisted that they must "treat 'er rough" by a ride in a traveling fort to the next stand.

"It wasn't as comfortable as the airplane, but it was more thrilling,"

said the singer, when she arrived at the next "Y" hut. "The boys kept taking short cuts that seemed to necessitate going over the tops of young forests and across huge ditches and shell holes. If they wanted to amaze me, they succeeded. I held on desperately and hoped for the best."

The tank landed her in a division of engineers, who promptly trotted out the greatest luxury they possessed, offering it delicately but firmly, although it was not Saturday night. They isolated Miss Horisberg in a little shack beside the railroad and backed up a perfectly good American locomotive to which they attached a hose with its business end in the shack. And thus, "for the first time in France," Miss Horisberg had all the hot water she wanted for a bath and shower.

Thus refreshed the singer went on by camionette—called a "guy" in

the United States, to a lumber mill where she entertained the men of the night shift, who had missed all the shows which had visited that neck of the woods. So that there would be no competition with her voice, the machinery was stopped during the concert. To fatten her average as champion diversifier rider of the world, the lumbermen had her mount a saw-carriage and ride through the process of sawing a log into one-and-a-half inch boards, thus making her an actress who not only rode but rode the boards.

On the following day she rode through the forest atop a mountain of logs dragged by a tractor, a bumpy journey to which the tank ride had hardened her. Then followed the hand-car ride to her next stop where, because the truck used for her was mired, she finished her strange tour in a wheelbarrow.

They need MORE grenades.

ANOTHER NOTE WILL GO TO PRINCE MAX AFTER HE REPLIES TO INQUIRY

Wilson Felt Curt Refusal Would Be Used By Max To Stimulate Home People To Activity

STRESS LAID ON U. S. TERMS

By CARL D. GROAT
(United Press Staff Correspondent)

Washington, Oct. 8. — President Wilson will probably go before Congress to cast further light upon the position he took in his inquiry to German Prince Max as soon as the latter replies.

The White House viewpoint regarding the query was elucidated thus: The inquiry does not bind President Wilson to any special course. It is distinctly an inquiry and not a reply to Prince Max's peace offer and the President will make a fitting reply as soon as he knows for certain whether Germany wants peace on his terms or is merely making an insincere peace move.

Particular attention was called to the fact that among the President's peace terms are complete freedom of Russia, Belgium, occupied France and reparation of the wrongs done Alsace-Lorraine. Also there is distinct emphasis upon the fact that self-determination shall be the governing factor in the territorial adjustments.

The President felt that a curt answer would serve as ammunition to the Teutonic war lords to stimulate the people of Germany and Austria to fresh efforts under the guise of self defense.

As the matter now stands, Germany knows clearly that complete evacuation of occupied territory must be the preliminary to a peace move. The German leaders were told that they must show their true colors not only to the world but to their own people.

During the afternoon President Wilson visited Secretary of State Lansing and remained in conference with him and with Chief of Staff March for a considerable time. The significance of the military man's presence there was not entirely clear but speculation was that the President was considering the military aspect of the future in case the Germans declined to evacuate.

By ED. L. KEEN

London, Oct. 8.—The first impression of President Wilson toward the armistice situation is somewhat disappointing especially from a fight to a finish standpoint. There is considerable speculation as to what means will be employed to enforce other than the fourteen terms in case the Germans retire from the western front.

INFLUENZA EPIDEMIC IS CONTINUING

Two influenza patients were admitted to the emergency hospital this morning. The situation about town as a whole is satisfactory to the health authorities who advocate unimpaired caution against a possible spread of the disease. Take no chances and call a physician when the first symptom appears.

The total deaths at Wishaw, Jefferson county, as a result of the Spanish influenza epidemic there reached 45 yesterday morning. Six having died there since Monday noon, five residents of Wishaw and Miss Anna McAndrews, a graduate nurse of DuBois. No new cases have developed in the past 24 hours and physicians in charge believe the epidemic has

TEXT OF PRESIDENT'S REPLY TO THE GERMAN CHANCELLOR

"Department of State.

"October 8, 1918.

"Sir:

"I have the honor to acknowledge on behalf of the President, your note of October 6, inclosing a communication from the German government to the President, and I am instructed by the President to request you to make the following communication to the Imperial German chancellor:

"Before making reply to the request of the Imperial German government and in order that that reply shall be as candid and straightforward as the momentous interest involved requires the President of the United States deems it necessary to assure himself of the exact nature of the note of the Imperial Chancellor. Does the Imperial Chancellor mean that the Imperial German government accepts the terms laid down by the President in his address to the Congress of the United States on the 8th of January last, and in subsequent addresses and that his object in entering into discussion with the United States is to decide upon the practical details of their application?

"The President feels bound to say with regard to the suggestion of an armistice that he would not feel at liberty to propose a cessation of arms to the governments with which the government of the United States is associated against the Central Powers as long as the armies of those powers are upon their soil. The good faith of any discussion would manifestly depend upon the consent of the Central Powers immediately to withdraw their forces everywhere from invaded territory.

"The President also feels that he is justified in asking also whether the German Chancellor is speaking only for the constituted powers of the government who have so far conducted the war. He deems the answer to these questions vital from every point of view."

GOVERNOR OF SMYRNA ON WAY TO ATHENS TO DISCUSS PEACE TERMS

London, Oct. 9.—A dispatch from Athens dated September 25 and 26 stated that Rahmi Bey, governor of the Turkish province of Smyrna, is expected to arrive in Athens tonight to discuss peace.

LIBERTY BOND NEWS OF INTEREST TO YOU

These mornings are frosty but the patriotism of our people has not been chilled. The fog has been dense these nights and long into the day, yet the good citizen is able to find his way to the Liberty Loan committee with his subscription—he has not forgotten the boys over the sea.

Pershing's men, who are pounding the Hindenberg line to pieces, fighting for you and for me. New Millport, on the creek, is not a large village. No meeting has been held here this campaign, yet when the fog lifted this morning she was \$1000 over the top. Kermoor a little further up the creek at one meeting went \$1350 over her quota and will do better still. Then there is Ansonville overlooking the whole world—watch the boy that will put us up to the \$10,000 mark—our standard in the Third Liberty Loan. Anybody who has ever been at McCauley knows that they do things started to subside, although it is believed that many more will succumb to the disease. Nurses and physicians are badly needed.

Reynoldsville

There are about 400 cases in the town, many complicated with pneumonia. The school building is being used as a hospital and the most severe cases are being taken there. Here nurses and physicians are also badly needed.

MORE DIPHTHERIA CASES REPORTED

Four more cases of diphtheria were reported to the health authorities last evening.

PENNSY TRAIN LATE

The Pennsylvania passenger train due here at 10:45 was three hours late today due to a tear-up on the mountain caused by a coal train wreck.

70 OF OUR BOYS GETTING PROGRESS "OVERTHERE" NOW

The Progress is now being sent to seventy of our boys with the American Expeditionary Forces in France and within a week or two those seventy boys are going to be very much pleased to know that there are thoughtful people back home who are thinking of them and to have, in one bundle, a whole week's news of their home community.

We consider it really remarkable that so many people took advantage of our offer to send The Progress overseas since we made the proposition. It was in effect only about ten days and in that time, as we said before, seventy subscriptions were taken.

We are now getting inquiries every day as to whether it is too late to subscribe at the regular rate for the boys overseas and we have decided to renew the offer. There are so many yet who will want to send the home paper to these boys.

In order that all may understand we will again explain that the addresses should be given us as plain as possible. Please do not give the address over the phone as by doing so we are liable to get it wrong. We would also explain that we are sending the papers once a week, six in a bundle, securely wrapped with postage affixed and it certainly is no fault of ours if they do not go through in good shape. We do not guarantee that all the papers will be received over there but we do guarantee that we will do all in our power to put them thru.

If you have a son, a brother or a friend over there and would like to send him The Progress we will be pleased to enter a three-month subscription for One Dollar.

Following is a list of the boys who are now on our A. E. F. subscription list:

Daniel I. Irwin.
John R. Hile.
Carl Schoonover.
Wilfrid Hudson.
Blake B. Shugarts.
A. I. Barrett.
James B. Dale.
James B. Brown.
W. E. Kolbe.
K. L. Wickes.
C. G. Bowes.
Robert F. Leopold.
Oscar W. Gearhart.

Attention, Six Bonds! Charge!

"GO THE LIMIT" CLUB HAS BEEN ORGANIZED HERE

These "go-the-limit" clubs are getting more and more popular every day in this Fourth Liberty loan and now there is a call which goes forth to the people of this loan district from a special committee appointed to round up the fellows who can "go the limit."

A call was issued this morning by a committee headed by Fred G. Betts and A. W. Bigler for men and women firm or corporation to get in touch with the solicitors and—"go the limit."

We append the call and will, from time to time, publish the names of the members of the club as they join: Join the "Go-The-Limit" Club Fourth Liberty Loan.

Each person, firm or corporation subscribing for \$5,000 or more of Liberty bonds enrolls in this club. We must go the limit. Many have enrolled. If you are not enrolled, go at once to your bank, or to one of the solicitors, and subscribe to the limit. If you have already subscribed but have not gone the limit increase your subscription at once.

FRED G. BETTS,
Chairman Special Com.
A. D. BIGLER,
Secretary

THINK MISTAKE HAS BEEN MADE

The relatives of Harry Souders, mention of whose death in France as a result of severe wounds, was made in last evening's Progress, are much distressed and torn by anxiety and doubt since receiving the telegram from the war department concerning the young man's death.

The official telegram received announced that the soldier had died on September 2d while his mother received a letter from him several days ago which was dated September 6th and of course purported to have been written some four days after the war department's information alleges his death occurred.

His family hopes that there has been an error in Harry's case, as there have been in several others of similar nature which have occurred with members of the A. E. F. An inquiry is on foot through the proper channels looking to a solution of the matter and the friends of the family hope a mistake has been made in the report of the young soldier's death.

The letters which were received by Mrs. Souders was written by the nurse in attendance on the wounded soldier at the base hospital where he had been taken after being wounded. It was dated September 6th four days later than the date of death in the official notification. The nurse wrote as follows: "Dear Madam, your son Harry Souders is a patient in this hospital suffering from several wounds, the most serious of which is that his left hand was blown off and his right arm slightly shattered. He is feeling fine withal that however, and is even now sitting up in bed smoking a cigarette."

WANTED—At once a woman to wash at the Emergency Hospital. Inquire of Mrs. B. K. Cleeve, Supt. H. & C. phone 136. Oct 9

BRITISH AND YANKS ARE PUSHING ON TO CAMBRAI

TENNESSEE AND CAROLINA TROOPS IN GREAT DASH MAKE CENTER RUSH GAIN OF FIVE MILES

SCOTCH AND IRISH UNITS ON LINE

While the Allied press gave its approval of America's reply to the German peace proposal, Allied guns pounded away at the enemy lines on the west front and in Serbia today.

General Haig officially announced that the British had entered Ramillies, 2 miles northeast of Cambrai.

General Byng and General Rawlinson's armies continue their advance today. Their operations have extended over a front of 30 miles; prisoners taken yesterday in this fighting total 8,000. Capture of German positions on a 3 mile front southeast of St. Quentin was announced today by the French war office. German counter attacks were repulsed along the Arnes river. There was violent artillery fighting along the Oise and the Suppe.

Other dispatches from London said that 65,000 Bulgars east of Uskub had surrendered to the Allies in accordance with the armistice conditions.

Yanks In Cambrai Fight

On a 20 mile sector of the west front between St. Quentin and Cambrai the British, Americans and French were reported away ahead of their schedules and had advanced an average of from 2 to 3 miles.

American troops flanked by the Irish and Scotch units drove forward 5 miles in the center of this line, taking Brancourt and Premont. The Americans were identified as the "Wild Cat" division from Tennessee and the Carolinas. The enemy by the aid of tanks succeeded in retaking the two villages but were unable to hold them.

Franco-American troops launched an attack east of the Meuse yesterday. The advance continued today over a seven mile front to a depth of 1 1/2 to 2 miles.

Kaiser May Use Every Male

Germany is throwing every available man into the west front fighting in an effort to make it appear that the Allies are unable to make substantial gains while the peace offensive is under way. Hospitals have been stripped of their convalescents.

Russia and Ukraine have been scraped for men and it is even declared there will be a blanket levy of all males in Germany if the Kaiser is unable to secure an armistice while his troops are on foreign soil.

YANKS BAGGED 3000 ON TUESDAY

Washington, Oct. 9.—The capture of Gornay by the Americans and the liberation of four other villages and a bag of 3,000 prisoners Tuesday was reported by General Pershing today.

MORRISDALE BOY DIES AT CAMP ADAMS, R. I.

Pneumonia, following an attack of influenza, resulted in the death of Alexander Mark at Camp Adams, R. I., at 1:30 Sunday afternoon, October 6. A telegram containing the sad intelligence reached home folks at Morrisdale on Monday. The body will likely arrive at Morrisdale today.

WILL RETURN ON FRIDAY

Horace C. Whiteman who was a pneumonia patient at Camp Merritt, N. J., for several months and who is now at home on a ten day furlough, will leave on Friday to report to army headquarters again. Horace is getting along fine says he never felt better than he does now and is more than anxious to go across the big pond.

WAR TIME HYPOCRISY

To call a man a hypocrite to his face would be inviting a quarrel and as a result that term is not applied except in aggravating cases though broadly speaking the term would apply to all humanity and we should admit that fact. Try as we will we cannot down a certain amount of hypocrisy that will creep into our moral makeup. If my reader will admit the presence shadows any kind or variety of hypocrisy ever nourished and developed by an unscrupulous mind.

How anybody can associate the buying of Liberty Bonds with giving is more than a wise man can understand or explain and yet, to hear some of these bond buyers talk, one would think that they were giving every dollar they put into Liberty Bonds. Some who by explaining that they "gave" in the last campaign. But they neglect to tell you that they sent more money than they ever had laid away in a band deposit vault or their home and that it represents to make themselves believe they are really giving all they can to help win the war and trying to forget that the bonds they bought have interest coupons attached to them.

We heard of a man the other day who is not a war time hypocrite. He is saving all he can. All he saves he puts into Liberty Bonds. He points to them with pride, not believing been able to save that much money and pleased that he can give Uncle Sam the use of it to spend it for some unnecessary luxury. No, he simply clips them off and sends them to the Red Cross. Now a man does not necessarily have to follow this course to clear himself of wartime hypocrisy but he should thoroughly understand in his own mind that he is saving and lending and helping but not "giving" when he buys Liberty Bonds.

Lending to Uncle Sam in the form of Liberty Bonds is easy if we can save. Saving is the hard part and the amount we save simply represents the difference between what we must have to live with comfort and the money we earn. Start today to keep track of your expenditures. See how much of it you could have saved. That will show you how much you can put into Liberty Bonds.

HELP THEM OUT OF INVADIED TERRITORY

Hate and revenge should have no part in a settlement with our affairs with Germany and yet it would seem like a travesty on justice if Germany should seize the opportunity presented by President Wilson to withdraw her armies from French and Belgian soil in preparation for a peace discussion. The inquiry directed to the German Chancellor may lead to some complicated conditions. Just suppose for a moment that the next note from Prince Max would state that if an armistice were granted a withdrawal of German troops from all invaded territory would immediately begin. Would the United States agree to such a proposal and in the light of the note sent by the President would we not be expected to agree to it? Or did the President imply that no armistice would be granted until we had driven the Huns back to their own soil by shot and sword. This answer would be all the more acceptable to the American people. The more complete the Hun is defeated the longer he will be to stick his head above the waters of the nations again and the longer will humanity live in peace and happiness.

Let the Huns be driven back to their own country before another reply is sent to their whimpering notes. We cannot and must not forget the first two years of their victorious armies when they scattered reason and justice to the four winds of the earth. When "might was right" and they would listen to nobody in their mad passion for world domination. Prince Max does not represent the common German people but is only another hireling of the Kaiser and with the coming of peace must go the Kaiser and his emissaries. The longer one dwells on the thought of any kind of a bargain with the German nation the greater becomes the desire that the ruling powers of Germany must suffer for what they brought upon the world and the more we believe that even an exchange of notes with them is out of place. Let them withdraw their armies from invaded territory as best they can. They put them there; let them get them out or be captured. The Yanks are over there. Let's put some more bonds behind them so they will drive them out of France and Belgium before they have a chance to go out orderly. A German withdrawal from France a la Chateau-Thierry and a la St. Mihiel suits us to a T.

WEARY HAS A WEARY JOB

Secretary Weary of Democratic State Headquarters was a Clearfield visitor last evening in the interest of the Democratic State ticket (all except Bonniwell). A conference of local Democrats was held and while nothing was given out for publication the general feeling of the meeting is understood to have been that Mr. Weary is a very weary gentleman with a wearier time ahead of him early in November. And by the way, we thought the Democratic party had dropped politics during the Fourth Liberty Loan. However, a number of them found time to gather round the prophet from Harrisburg, and there were some who neither work nor fight either. Some were there who have been too busy to donate any time to the Liberty Loan committees. Alright fellows, we know you are honest in your belief that Democracy means the Democratic party so we pardon your errors.

GET YOUR HONOR FLAG

Honor Emblems or Honor Flags with percentage numbers from 75 per cent. to 100 per cent. should fly from every store, every plant, every business place, every church, club, or other organization with twenty or more members or employees subscribing to the Fourth Liberty Loan. Every smaller organization and home should display its Honor Emblem.

Apply for full information to

LIBERTY LOAN COMMITTEE.

Don't Talk Peace

America Is Fighting For Peace

If you would insure the only enduring Peace, the Peace of Allied Victory, buy all the Liberty Bonds you can possibly pay for.

If you can't shoulder a gun, you can make your money fight.

They are giving their lives in France. Shall we be less willing to lend our money?

UNCLE SAM'S ADVICE ON FLU

U. S. Public Health Service Issues
Official Health Bulletin
on Influenza.

LATEST WORD ON SUBJECT.

Epidemic Probably Not Spanish in Origin—Germ Still Unknown—People Should Guard Against "Droplet Infection"—Surgeon General Blue Makes Authoritative Statement.

Washington, D. C.—(Special.)—Although King Alfonso of Spain was one of the victims of the influenza epidemic in 1883 and again this summer, Spanish authorities repudiate any claim to influenza as a "Spanish" disease. If the people of this country do not take care the epidemic will become so widespread throughout the United States that soon we shall hear the disease called "American" influenza.

In response to a request for definite information concerning Spanish influenza, Surgeon General Rupert Blue of the U. S. Public Health Service has authorized the following official interview:

What is Spanish Influenza? Is it something new? Does it come from Spain?

"The disease now occurring in this country and called 'Spanish Influenza' resembles a very contagious kind of 'cold,' accompanied by fever, pains

Coughs and Sneezes Spread Diseases

As Dangerous as Poison Gas Shells

in the head, eyes, ears, back or other parts of the body and a feeling of severe sickness. In most of the cases the symptoms disappear after three or four days, the patient then rapidly recovering. Some of the patients, however, develop pneumonia, or inflammation of the ear, or meningitis, and many of these complicated cases die. Whether this so-called 'Spanish' influenza is identical with the epidemics of influenza of earlier years is not yet known.

"Epidemics of influenza have visited this country since 1647. It is interesting to know that this first epidemic was brought here from Valencia, Spain. Since that time there have been numerous epidemics of the disease. In 1889 and 1890 an epidemic of influenza, starting somewhere in the Orient, spread first to Russia and thence over practically the entire civilized world. Three years later there was another flare-up of the disease. Both times the epidemic spread widely over the United States.

"Although the present epidemic is called 'Spanish influenza,' there is no reason to believe that it originated in Spain. Some writers who have studied the question believe that the epidemic came from the Orient and they call attention to the fact that the Germans mention the disease as occurring along the eastern front in the summer and fall of 1917."

How can "Spanish influenza" be recognized?

"There is as yet no certain way in which a single case of 'Spanish influenza' can be recognized. On the other hand, recognition is easy where there is a group of cases. In contrast to the outbreaks of ordinary coughs and colds, which usually occur in the cold months, epidemics of influenza may occur at any season of the year. Thus the present epidemic raged most intensely in Europe in May, June and July. Moreover, in the case of ordinary colds, the general symptoms (fever, pain, depression) are by no means as severe or as sudden in their onset as they are in influenza. Finally, ordinary colds do not spread through the community so rapidly or so extensively as does influenza.

"In most cases a person taken sick with influenza feels sick rather suddenly. He feels weak, has pains in the eyes, ears, head or back, and may be sore all over. Many patients feel dizzy, some vomit. Most of the patients complain of feeling chilly, and with this comes a fever in which the temperature rises to 100 to 104. In most cases the pulse remains relatively slow.

"In appearance one is struck by the fact that the patient looks sick. His eyes and the inner side of his eyelids may be slightly 'bloodshot' or 'congested,' as the doctors say. There may be running from the nose, or there may be some cough. These signs or a cold may not be marked; nevertheless the patient looks and feels very sick.

"In addition to the appearance and the symptoms as already described, examination of the patient's blood may aid the physician in recognizing 'Spanish influenza' for it has been found

It's MORE than duty.

My boy, I backed you!

BUY YOUR LIMIT!

Bonds are their armor!

WORK, EARN, BUY!

that in this disease the number of white corpuscles shows little or no increase above the normal. It is possible that the laboratory investigations now being made through the National Research Council and the United States Hygienic Laboratory will furnish a more certain way in which individual cases of this disease can be recognized."

What is the course of the disease? Do people die of it?

"Ordinarily, the fever lasts from three to four days and the patient recovers. But while the proportion of deaths in the present epidemic has generally been low, in some places the outbreak has been severe and deaths have been numerous. When death occurs it is usually the result of a complication."

What causes the disease and how is it spread?

"Bacteriologists who have studied influenza epidemics in the past have found in many of the cases a very small rod-shaped germ called, after its discoverer, Pfeiffer's bacillus. In other cases of apparently the same kind of disease there were found pneumococci, the germs of lobar pneumonia. Still others have been caused by streptococci, and by others germs with long names.

"No matter what particular kind of germ causes the epidemic, it is now believed that influenza is always spread from person to person, the germs being carried with the air along with the very small droplets of mucus, expelled by coughing or sneezing, forceful talking, and the like by one who already has the germs of the disease. They may also be carried about in the air in the form of dust coming from dried mucus, from coughing and sneezing, or from careless people who spit on the floor and on the sidewalk. As in most other catching diseases, a person who has only a mild attack of the disease himself may give a very severe attack to others."

What should be done by those who catch the disease?

"It is very important that every person who becomes sick with influenza should go home at once and go to bed. This will help keep away dangerous complications and will, at the same time, keep the patient from scattering the disease far and wide. It is highly desirable that no one be allowed to sleep in the same room with the patient. In fact, no one but the nurse should be allowed in the room.

"If there is cough and sputum or running of the eyes and nose, care should be taken that all such discharges are collected on bits of gauze or rag or paper napkins and burned. If the patient complains of fever and headache, he should be given water to drink, a cold compress to the forehead and a light sponge. Only such medicine should be given as is prescribed by the doctor. It is foolish to ask the druggist to prescribe and may be dangerous to take the so-called 'safe, sure and harmless' remedies advertised by patent medicine manufacturers.

"If the patient is so situated that he can be attended only by some one who must also look after others in the family, it is advisable that such attendant wear a wrapper, apron or gown over the ordinary house clothes while in the sick room and slip this off when leaving to look after the others.

"Nurses and attendants will do well to guard against breathing in dangerous disease germs by wearing a simple fold of gauze or mask while near the patient."

Will a person who has had influenza before catch the disease again?

"It is well known that an attack of measles or scarlet fever or smallpox usually protects a person against another attack of the same disease. This appears not to be true of 'Spanish influenza.' According to newspaper reports the King of Spain suffered an attack of influenza during the epidemic thirty years ago, and was again stricken during the recent outbreak in Spain."

How can one guard against influenza?

"In guarding against disease of all kinds, it is important that the body be kept strong and able to fight off disease germs. This can be done by having a proper proportion of work, play and rest, by keeping the body well clothed, and by eating sufficient wholesome and properly selected food. In connection with diet, it is well to remember that milk is one of the best all-around foods obtainable for adults as well as children. So far as a disease like influenza is concerned, health authorities everywhere recognize the very close relation between its spread and overcrowded homes. While it is not always possible, especially in times like the present, to avoid such overcrowding, people should consider the health danger and make every effort to reduce the home overcrowding to a minimum. The value of fresh air through open windows cannot be overemphasized.

"When crowding is unavoidable, as in street cars, care should be taken to keep the face so turned as not to inhale directly the air breathed out by another person.

"It is especially important to be aware of the person who coughs or sneezes without covering his mouth and nose. It also follows that one should keep out of crowds and stuffy places as much as possible, keep homes, offices and workshops well aired, spend some time out of doors each day, walk to work if at all practicable—in short, make every possible effort to breathe as much pure air as possible.

"In all health matters follow the advice of your doctor and obey the regulations of your local and state health officers."

"Cover up each cough and sneeze. If you don't you'll spread disease."

Bonds fight in the air.

Bonds fight on the sea.

One Bond will buy 12 shirts.

One Bond will buy 48 mess kits.

Buy Your Childrens School Shoes Carefully

It is hardly necessary to give you this advice, because every mother or father knows the importance of getting shoes that assist the natural development of the child's foot, still it's good advice, and will bear frequent repetition.

Here you will find large assortments of children's school shoes—sensibly shaped, splendidly made. Plenty of room for little toes to wiggle and grow, made of quality leathers that insure long service, even though given the roughest treatment. Buying children's shoes carefully really amounts to buying them at this store. We have them all marked at reasonable prices too.

LYTLE BROTHERS

Stupenduous Potato Sale of Fine U. S. Graded Potatoes

These will run uniform in size and we are assured by the shipper that they are fine mealy cooking potatoes. They are graded by the U. S. Food regulation standard which is your protection at this time.

The car is now running and we expect it to be here

Monday, October 14th
At The Pennsy Siding

We will have a new selling plan for these potatoes. They are shipped in sacks containing 2 1-2 bushels each. We will not break the sacks as the price is so low \$1.75 per bushel—and the profit margin so close that we must eliminate handling as much as possible.

Orders Taken At The Stores

If you wish to be sure of getting a sack you may place your order at any of the Clearfield stores and—here's one little restriction we place on the sale—this order must be paid for at the time of placing to avoid confusion at the car and avoid disappointment to some of our customers.

The Price

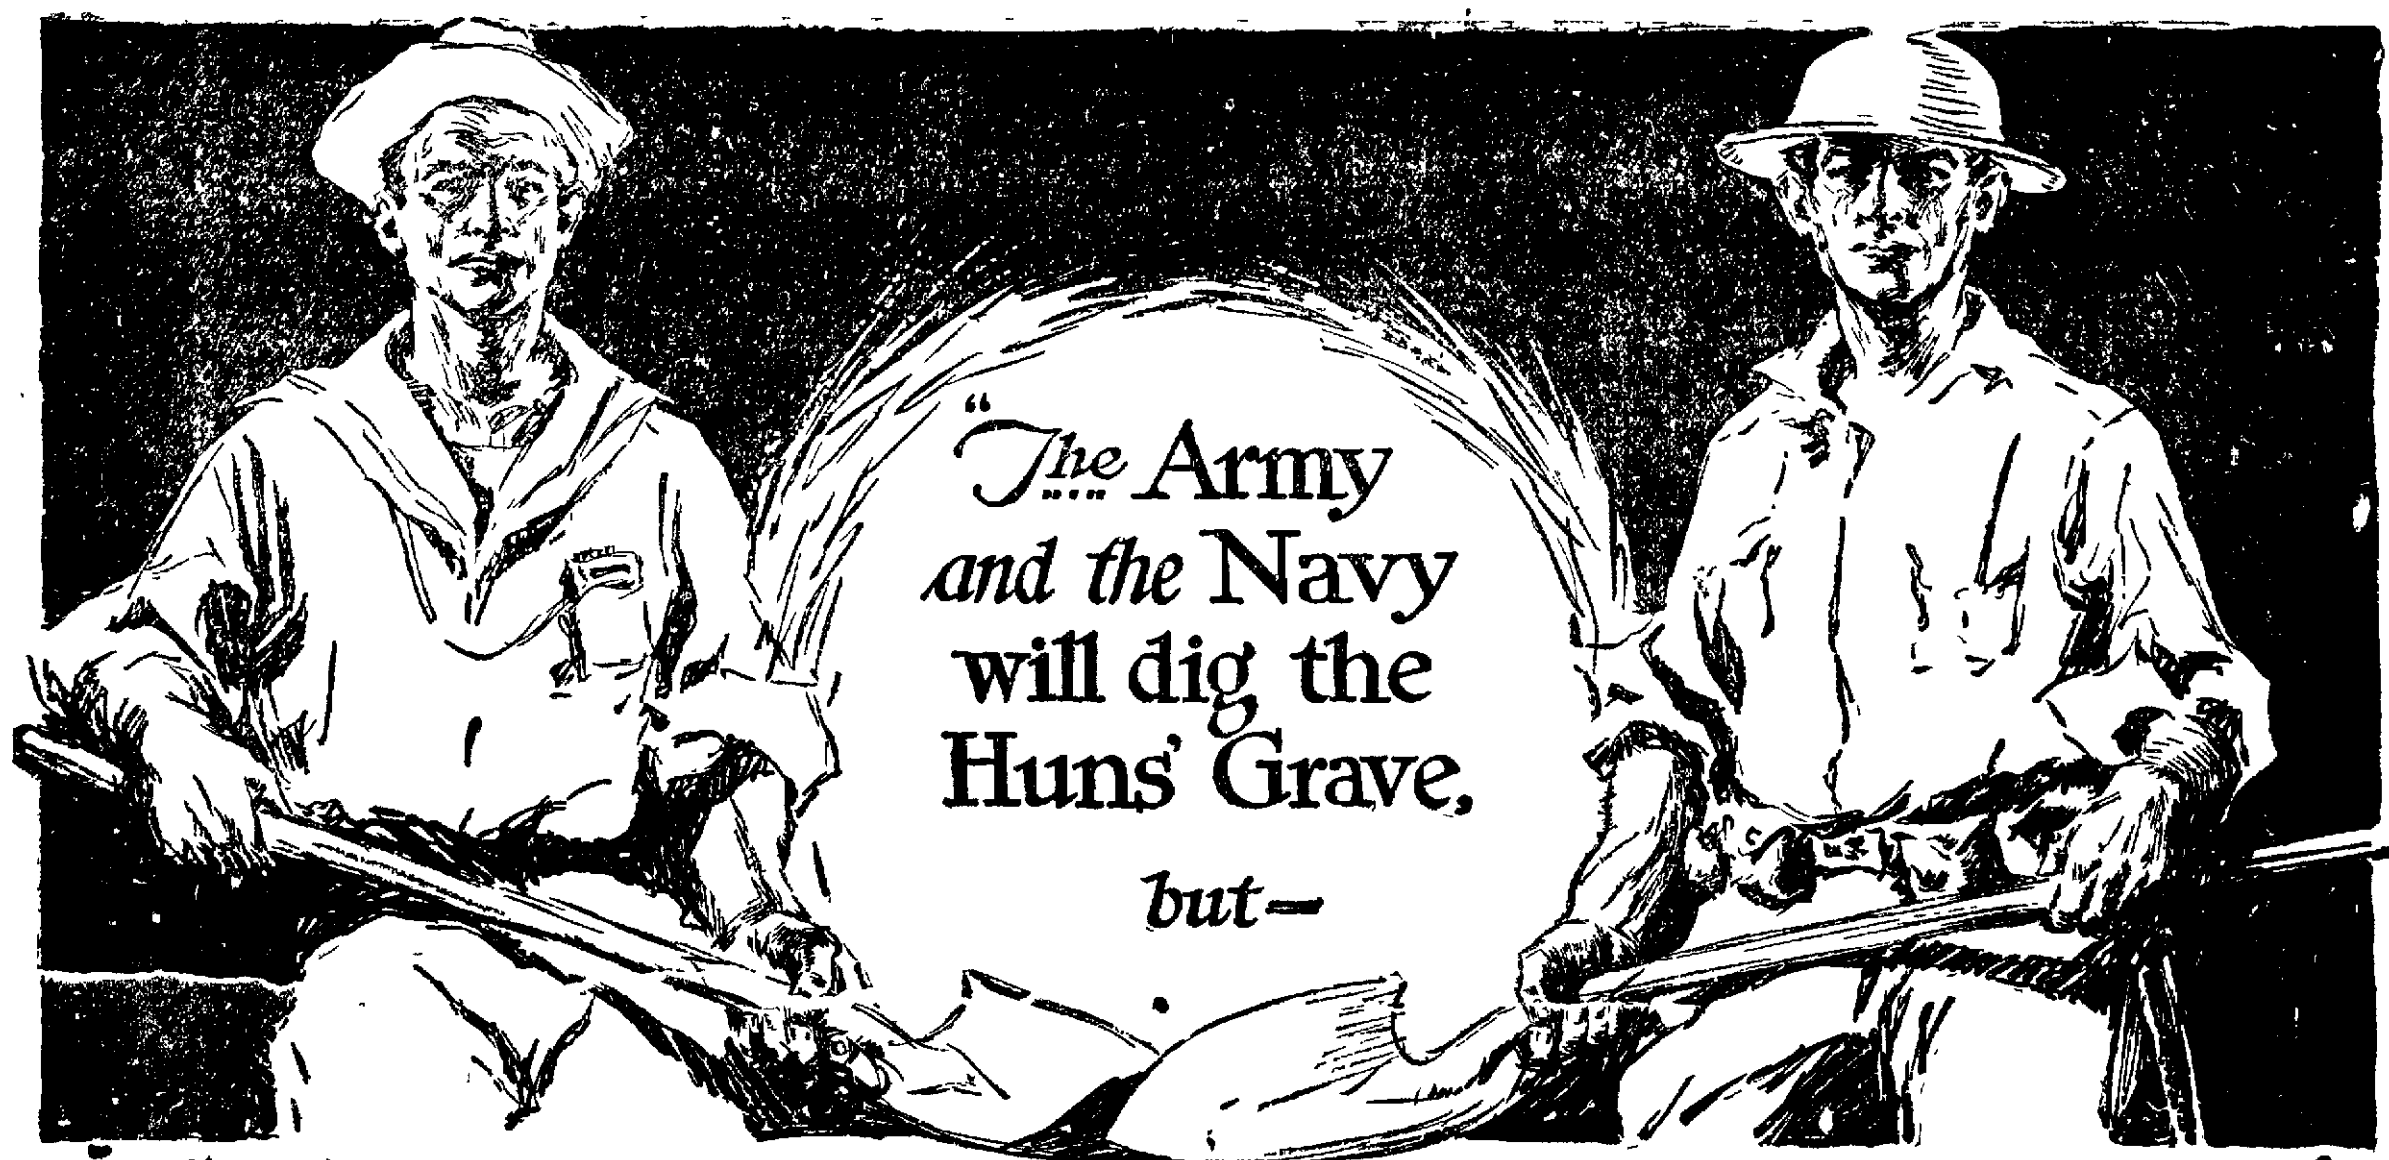

\$4.40

We Must Furnish the Spade" — Billy Sunday

By REV. WILLIAM A. SUNDAY

Uncle Sam's Liberty war chest needs filling again!

We have the cash to fill it as many times as he lifts the lid.

There are only two horns to this dilemma—you are either a patriot or a traitor.

The men on the firing line and on the battle-ships have turned from business, home, mother, wife, children, and they stand ready to give *their* lives and shield with *their* bodies us who remain at home.

We are unworthy to be thus protected, if we do not do our utmost to sustain them.

We must be one in our determination to win this war. We are traitors to the cause for which they are giving their lives, if we do things here that make their efforts harder.

Life is not worth living unless there is something to live for. *Life would not be worth living if that bunch of Huns should win.*

That is why they cannot win. That is why we cannot lose.

What a mountain of crime God has on his books against that horde of Hellish Huns. What grave is deep enough for this thousand-armed, thousand-footed,

thousand-headed, thousand-horned, thousand-fanged pirate of the air, assassin of the seas, despoiler of the earth and ambassador of Hell!

The army and navy will dig the grave, but we must *furnish the spade.*

Our boys will soon hang crape on the door of the Potsdam Palace, and the bands will play Yankee-Doodle and Dixie along the Rhine.

Uncle Sam is the cactus in the Kaiser's pillow.

Our Boys have gone over to clean up on that fool bunch of Huns and it is up to us to supply them with whatever they need to finish the job. It takes money to keep the riveters riveting—the sawyers sawing—the machine guns spitting bullets and the grub wagon always on hand with the eats. There is nothing too good for our brave defenders.

Our vocabulary contains no words adequate to express our approval of the achievements of our government since we threw our hat in the ring. We are rich on top of the ground; we are rich under the ground and our rivers creep like silver serpents to the seas, bearing our products.

The children of England, France, Italy and Belgium are laughing once more because they are being fed from Uncle Sam's bakeshop. One carload of meat every two minutes, one hog out of every four, nine million pounds of meat a day—all going over to feed our boys. We are in this scrap to the last dollar, the last grain of wheat, the last day.

We will never stop until Germany dips her dirty blood-stained rag to the Stars and Stripes. It's a whale of a job we've tackled, but we can and must put it over.

But you must help.

Don't whine. Don't knock. You can't saw wood with a hammer. Don't turn the hose on the fire; add fuel.

Postum

Good Friend of the Coffee Drinker

Coffee often disagrees with the best of us

When you find it wise to stop coffee for a few days on account of disturbed digestion or too much nerves, switch to Postum and note the result.

Many people who love their coffee follow this plan with excellent results.

Postum comes in two forms: Postum Cereal which must be boiled, and Instant Postum, made in the cup in a moment. They are equally delicious and the cost per cup is about the same.

"There's a Reason"

FOUR DUBOIS SOLDIERS MISSING IN ACTION

Yesterday afternoon and last evening telegrams were received in Dubois from the War Department apprising relatives of the fact that Dubois young men were missing in action. Four young men from Dubois and immediate territory are missing. They are:

James D. Hay, of South Jared St. Elmer McMasters, of State street. Corp. Charles Wike, Forest avenue. Corp. Charles Hetrick, Clear Run.

The telegrams to the relatives were all identical, with the exception of the names and stated that the young men had been missing in action on August 27th.

All of these young men are members of Co. H, 112th Regiment, formerly the 16th Regiment. They all trained with the company at Camp Hancock and went over with the regiment last April.

BELL-ALDERDICE WEDDING OCTOBER TWENTY-SIXTH

Judge and Mrs. Singleton Bell, of West Front street, have issued invitations to the wedding of their eldest daughter Miss Julia to Robert J. Alderdice, of Pittsburgh, the happy event to occur in the First Presbyterian church on Saturday evening, October 26th.

NOTICE

Owing to the ruling of the board of health there will be no meetings of the Sons and Daughters of Liberty until further notice. All members wishing to pay their dues will leave the same with the financial secretary Ada Ogden, on Turnpike avenue. All sick members please report to the relief committee.

RUTH OGDEN
Counselor

WHAT IS YOUR SHARE?

Let your full subscription be your answer to the question of how you will share in the coming victory. Be true to yourself and to the men who are fighting for you. Here is a table that will help you to figure out how many Bonds to buy in the Fourth Liberty Loan:

IF I HAVE DEPENDENT ON ME	NONE	ONE	TWO	THREE	FOUR	5 or More
\$20 TO \$25, I SHOULD BUY	\$150	100	50	50	50	50
\$25 TO \$30, I SHOULD BUY	200	150	100	100	50	50
\$30 TO \$35, I SHOULD BUY	250	200	150	150	100	100
\$35 TO \$40, I SHOULD BUY	300	250	200	150	100	100
\$40 TO \$45, I SHOULD BUY	350	300	250	200	150	150
\$45 TO \$50, I SHOULD BUY	500	400	300	250	250	200
\$50 TO \$60, I SHOULD BUY	600	500	350	300	300	250
\$60 TO \$70, I SHOULD BUY	700	600	450	400	400	300
\$70 TO \$80, I SHOULD BUY	800	700	600	500	500	400
\$80 TO \$90, I SHOULD BUY	1000	900	800	700	600	500
\$90 TO \$100, I SHOULD BUY	1200	1100	900	800	800	700
\$100 TO \$120, I SHOULD BUY	1500	1400	1300	1200	1100	1000

And Those of Larger Incomes Should Buy Proportionately Larger Amounts.

This scale has been worked out by the Liberty Loan Committee, with the help of labor leaders. If it is followed the wage-earner will have done his full part to make the Fourth Liberty Loan a success.

GLEANING FROM SOLDIER'S LETTERS

Camp de Meuse
France

Dearest Mother and all:

Well Mother dear, I am still well and still enjoying army life but I am now beginning to realize that I am in the army, a real army engaged in active warfare, and can hardly wait for the few weeks we must put in on preliminary training here before we take our place on the front line.

I have been on the gun range nearly every day since we landed here, driving a first aid cart. Ever see one? Well it's a big two wheeled cart and you usually get the biggest horse in the regiment to hook up in it, and as my regular horse has been on the sick line since marching over from Redar I have been using a different one every day and day before yesterday I drew a lemon. It took Jitney Nichol the boy who goes with me on the cart, about an hour to hitch her up, and about two hours to drive the three miles to the range. We sure had a circus with that mare all right. She cut more dices on that road than a monkey on a grape vine, then held up a truck for about half an hour by getting crossed in the road and refusing to move. Of course there was a heated argument between the two truck drivers and I and while the argument was in progress the old gray mare started serenely on her way and never stopped till we reached the range. We were covered from head to foot with dust. We pitched the tent behind the guns and watched the boys smash the targets with the big 155s and they can shoot too, you can see the big shell leave the guns and watch them till they are out of sight and with field glasses you can see them light and throw dirt and stones a hundred feet or so in the air, about two minutes after the shell strikes you hear the report of the explosion, and to sit all day behind those guns, eighteen or twenty of them going all day is pretty hard till you are used to it. I had a headache the first few days, but now I don't stick cotton in my ears or anything else, and have gone to sleep in the tent behind them when they were still going.

There are about 4500 German prisoners in this camp and to talk to them you would not think it of them. Lots of them are from the states and seem like pretty nice fellows but most of them are hard heads and bad actors. We pass them every morning on the way to the range going out to build roads and do general work under guard of French soldiers. There are aeroplanes flying over this camp nearly all the time. I like to watch them turning and doing tail spins and one thing and another, some of them are as reckless as the deuce.

Pidge Matley is a gunner in 314 now. I was talking to him the other day on the range. He operates a French 75. It's a little better than our three inch field piece. The Germans when they are captured always ask to see one of our three inch machine guns. The boys operate them like lightning and they make more noise than our big six inch guns. They sure are a wicked gun all right and have saved France more than once. Bobby Thompson and Chink Poorman from Chester Hill are here

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles. If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain. Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

In this camp with the 305 ammunition train some place but I haven't seen them yet. Think I'll look them up Sunday. Get Dan Rumberger's regiment too, I want to find out what part of France he is in. Is there any truth about Ashley Dennis being killed in action. Andy Farnel told me about it the other night. He is in the same outfit with Max Askey isn't he.

You needn't worry about me. We are well fed and cared for and having a good time in general and I am in the best of health. I'll try and write you again Sunday, so I'll say good bye till then.

Love to All
GEORGE R. BECK

Words won't win!

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Millions of folks battle internally now instead of looking their system with drugs. "What's an inside bath?" you say. Well, it is a guaranteed to purify, invigorate if you could believe these hot water enthusiasts. There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile, and indigestible food, leaving left over in the body which if not eliminated every day becomes food for the millions of bacteria who inhabit the bowels in the quick result is poisons and toxins which are then absorbed into the blood causing headaches, listlessness, attacks of faintness, bad taste, cold stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments. People who feel one day and badly the next but who simply cannot get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Buy Liberty Bonds!

Your country needs all your money therefore it's up to you to save all you can on your magazines.

I have several saving plans on magazine clubs. Ask me about them.

The Magazine Man.

OTTO WAS ON THE JOB

In a letter to The Progress Private Otto Eppers, who styles himself "plain Otto" gives a vivid description of the recent TNP explosion at the T. C. Gillespie shell loading plant at Morgan, near Perty Amboy, N. J. Otto is located at Camp Alfred Vail, N. J., about eighteen miles from the explosion and he said the series of explosions created great excitement at the plant as it was thought the German fleet had sneaked across the ocean and was bombarding New York.

Otto said the men at Camp were lined up for inspection at once and they anticipated action of some kind at once and were grievously disappointed when the truth was finally known.

A large number of army trucks were dispatched from the camp to the scene and the soldiers worked hard in helping to get survivors away from the scene of the wreck and the countless explosions occurring momentarily.

Otto failed to get orders for this duty and thus was unable to demonstrate his ability as a fire fighter.

Give my best wishes to all the dear ones at home and tell them that I am still the same Otto I was when I left Clearfield with the best of fighting spirits and ready for it all. Back up the Liberty Bonds with the best of each dollar in dear old Clearfield and we will gladly fight until we are gone. I close with respects to all and wishing them all great success with victory to us all.

I remain
PLAIN OTTO

TREE PLANTING OCT. 13

Brunbaugh Fixes Date to Begin Replenishing the Supply

Governor Brunbaugh today issued a proclamation fixing October 18 as "Walnut Tree Planting Day" and urged the school children, boy scouts, girl scouts, sportsmen, farmers and others to plant black and white walnut trees especially the former.

The nation's supply of black walnut lumber is nearly exhausted and the planting of trees will bring the Governor says, a generous supply of wood, purer air, regulated water supply and food for the wild life of the state in the future.

Liberty is cheap at the price! It's your chance to STRIKE. The Runs butcher wounded!

NOTICE

A good job awaits a good, sober, industrious man age 40 to 50. Indoor work for the winter. Includes room and meals. Inquire of The Progress. OS-62c

Take The Chill off The House

When the youngsters come tumbling out of bed these chilly mornings they should be greeted with a warm room in order to avoid the chance of the chill that presages influenza.

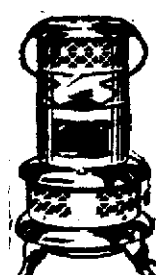

A PERFECT HEATER will keep your house cozy and warm these mornings and it will not be needed to start the furnace—saving coal.

The ease with which these PERFECT HEATERS are moved from room to room as you go through the morning's work makes them the ideal heat for the season.

PERFECT OIL HEATERS

You're patriotic in saving coal; you're avoiding chances of taking cold yourself and having a warm room or rooms for the kiddies when they first hop out of bed.

These PERFECT HEATERS are economical in oil burning.

Shotguns and Shotshells

GET the full benefit of your spare time for shooting. Use the full power of the Remington UMC Pump Gun or the Remington Shotgun and Shotshells "Arrow" or "Nitro Club" Waterfowl Shot Lined "Speed Shells" made to shoot right.

Remington UMC
for Shooting Right

There is not a single out-of-date mechanical principle of old-fashioned (but modern) the Remington UMC Shotguns. They load, the work and shoot equal to highest expectations.

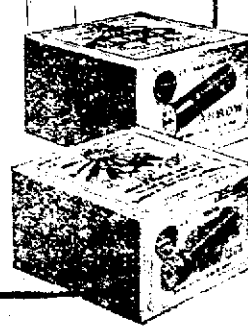

Likewise, Remington UMC Shotshells "Arrow" and "Nitro Club" Waterproof Seal Lined "Speed Shells" made completely waterproof by a wonderful and exclusive process, really justify their selection.

You buy the same popular "Arrow" or "Nitro Club" brand, at the regular price, and get the Waterproof improvement besides, without extra charge. The same shells, having highest speed, best pattern and penetration, made still better. When they "ought to" be affected by damp evening or soaking wet from a shower, they will be found hard and smooth as usual, will work through the gun perfectly and shoot right.

In black gun, shell, lever, the old reliable "Nitro Club" now Waterproof sealed at turnover and top web.

Sold by Sporting Goods Dealers in Your Community. Carried all year long with REM UMC, the emblem of the Power Shot, at Remington UMC Store.

American Girl Travels by Aeroplane, Handcar, Tank and Wheelbarrow to Sing for Soldiers

A GIRL who has her own cars or the use of elegant limousines may well bite their beautifully manicured nails with envy of Miss Kate Horisberg, who has been staging in Y. M. C. A. huts to entertain the American Expeditionary Force soldiers in France.

In one tour she was conveyed from one stand to another variously in
A side-car,
A limousine,
An airplane,
A tank,
A camionette,
A saw-mill carriage,
Atop a pile of logs on a timber snag.

On a railroad handcar, and finally in a wheelbarrow.

An army truck was included among her prospective conveyances, but it became mired and could not be used.

Before the United States entered the war, Miss Horisberg, a Baltimore girl, was a dramatic soprano doing church, concert and light opera staging. She toured forty weeks in "Every Woman," playing the role of Conscience. When the Y. M. C. A. took up the gigantic task of entertaining the American boys in addition to furnishing them with mental, spiritual and physical refreshment and recreation, she was enlisted by the Red Triangle's entertainment bureau for concert work in the war zone. She went over with the first quartette sent by the "Y," the Liberty Quartette, in December and has not signified her intention of quitting the work after more than half a year.

Miss Horisberg's singing tour took her to many American camps where she appeared on the stage at the Y. M. C. A. huts, the soldiers' theatre in the war zone. Overflow audiences greeted her, for the Yankee boys in France have learned to depend on the "Y" to keep them supplied with the best, clean, healthy entertainment of the sort that is a link with home.

The young men in olive drab who are fighting abroad for democracy appreciate thoroughly the selfless work which the men and women of the Red Triangle are doing for them there, the majority of them at the risk of their lives. The remarkable series of rides on unusual vehicles which the boys treated Miss

MISS KATE HORISBERG

Horisberg was a manifestation of their appreciation of the "Y" work as well as of their delight at chaperoning an American girl through the war zone.

Her novel tour started in a specimen of that quaint but useful type of army vehicle known popularly as a "bathtub," the railway conveyer of a motorcycle. Having swallowed enough dust while in this she was transferred to a more prosaic limousine, in which she arrived at an aviators' camp. She sang her way into the affections of the flyers, who took her by airplane to her next stop.

This concert was for the boys of the first American tank division in France and, not to be outdone by the aviators, the tankers insisted that they must "treat 'er rough" by a ride in a traveling fort to the next stand.

"It wasn't as comfortable as the airplane, but it was more thrilling," said the singer, when she arrived at the next "Y" hut. "The boys kept taking short cuts that seemed to necessitate going over the tops of young forests and across huge ditches and shell holes. If they wanted to amaze me, they succeeded. I held on desperately and hoped for the best."

The tank landed her in a division of engineers, who promptly trotted out the greatest luxury they possessed, offering it delicately but firmly, although it was not Saturday night. They isolated Miss Horisberg in a little shack beside the railroad and backed up a perfectly good American locomotive to which they attached a hose with its business end in the shack. And thus, "for the first time in France," Miss Horisberg had all the hot water she wanted for a bath and shower.

Thus refreshed the singer went on by camionette—called a "guy" in the United States, to a lumber mill where she entertained the men of the night shift, who had missed all the shows which had visited that neck of the woods. So that there would be no competition with her voice, the machinery was stopped during the concert. To fatten her average as champion diversifier rider of the world, the lumbermen had her mount a saw-carriage and ride through the process of sawing a log into one-and-a-half inch boards, thus making her an actress who not only rode but rode the boards.

On the following day she rode through the forest atop a mountain of logs dragged by a tractor, a bumpy journey to which the tank ride had hardened her. Then followed the hand-car ride to her next stop where, because the truck used for her was mired, she finished her strange tour in a wheelbarrow.

On the following day she rode through the forest atop a mountain of logs dragged by a tractor, a bumpy journey to which the tank ride had hardened her. Then followed the hand-car ride to her next stop where, because the truck used for her was mired, she finished her strange tour in a wheelbarrow.
